INTERNSHIP INFO

INTERNSHIP MODES

VACATION INTERNSHIP
(Students work on the project at the site of the company /institute/research lab during the vacation)

STUDENT CO-OP PROGRAM @ IIT DHARWAD

SUMMER INTERNSHIP
(1st May-31st July)*

WINTER INTERNSHIP
(1st December-31st December)*

CO-OP IN CAMPUS
Students may extend a vacation project into the semester by working from the institute premises.

CO-OP ONSITE
Students spend an entire semester (along with the adjoining vacation periods if required) at the company doing an internship.

*NOTE: Please refer the academic calendar of IIT Dharwad for the dates of the summer and winter break.

CO-OP PROGRAM

- This program is explicitly for the final year students and can be done in:
    - 7th semester (1st July – 31st Nov)
    - 8th semester (1st Jan – 30th April)
- Students earn B.tech project (BTP) credits through work done in the co-op program.
- The BTP rules mentioned in B.tech rule book will be applicable.
- Credits that can be earned by co-op program :6 or 12
- Student can earn a maximum of 12 BTP credits throughout the semester.
- ## To earn credits:

Identify a willing faculty mentor at the institute for the project	→	The mentor decides on how many credits are to be awarded, as well as he/she assigns the grade	→	Students present their work in the institute and submit a report as it is done for BTP (the company must be willing to accommodate this)

1. **In campus co-op program:**
- Students work on the project alongside other courses ongoing in the institute.
- The vacation internship can also be extended into the co-op in-campus program.

2. **On-site:**
- Students spend an entire semester (along with the adjoining vacation periods if required) at the company doing an internship.
- In order to do this internship, students must be **qualified** to overload their courses of that semester into other semesters so as to complete the minimum credits required (between 266 and 282) to get a B.Tech. Degree of any discipline.
- NO courses can be completed during this semester.

INTERNSHIP PROCEDURE

```mermaid
flowchart
```

The company fills the internship notification form on the CDC website following the guidelines. → The details regarding the internship is conveyed to the students → A list of eligible and interested students is made available to the company

↓

The company conducts tests and interviews according to their internship selection procedure

Co-op program → Selected students need to identify a willing faculty mentor at the institute for the project who will decide on how many credits are to be awarded, as well as he/she will assign the grade.

Vacation internship →

A list of selected interns along with their offer letters is sent to the Internship Wing of the CDC and the students complete the formalities with the institute

↓

Selected students obtain the bonafide, NO OBJECTION certificate from the institute (as requested by the company) → Students complete formalities with the company and a confirmation is sent to the company by CDC → Students start working for the internship

Vacation Internship

Students work on the project at the institute/research lab/company

In-campus internship

Students work on the project from the institute alongside other courses

On-site internship

Students spend an entire semester working at the company (along with the adjoining vacation periods if required)

↓

The company is requested to fill a feedback form on the student's performance after the internship ← Students present their work in the institute and submit a report as it is done for BTP (the company must be willing to accommodate this)
